To,

Prof. Dr. Vaijinath A. Verma Department of Chemistry SPJMB College Shorapur, India E-mail: drvermachem@gmail.com

Dear Prof. Dr. Verma,

Indeed, thank you very much for the invitation to deliver a lecture during ONE DAY INTERNATIONAL WEBINAR ON THE IMPLEMENTER ROLE OF CHEMICAL AND BIOLOGICAL SCIENCES IN CONFLICT CONTRARY TO COVID-19 (ICBSC-2021), held virtually on 29th January 2021 from 8.00 am to 11.30 am (IST) and it was my pleasure to be part of this event.

Thank you again Dr. Verma and leadership team from SPJMB College for arranging an international webinar, which was very well thought, arranged and executed. I am glad to be part of it and personally enjoyed presenting and interacting with the students/faculty. Particularly, I am very impressed with the level of commitment, engagement, and enthusiasm from faculty and students to explore new scientific techniques and see what is currently happening to combat the COVID-19 pandemic especially by using new mRNA-based vaccine. Good to see the biodegradable polymers invention as a delivery agent and progress towards developing personalized medicine.

Hoping that it was informative and exciting for the students and I wish you all the best and keep up the good work.

With regards.

Sincerely,

Anilkumar R. Kore Ph. D. Director, Chemistry Associate Editor, CPNC (WILEY)

Subject: One Day International Webinar on * The Implementer Role of Chemical and Biological Sciences in Conflict Contrary to COVID-19 (ICBSC-2021)

Dear Dr Verma,

I would like to congratulate you and your colleagues on the next organization and successful conduct of international webinar on the topic "The Implementer Role of Chemical and Biological Sciences in Conflict Contrary to COVID-19 (ICBSC-2021) "

It was an absolute pleasure for me to participate in the conference and get an opportunity interact with the participants. Thank you very much for the opportunity.

It was gratifying for me to note the strong enthusiasm of the faculty and students and eagerness to learn the latest developments from the speakers who were drawn from the elite Institutions.

The choice of the topic for the conference was of great interest and concern to everyone and was in tune with the current interdisciplinary nature of the research trends.

The speakers elegantly conveyed the message that science is the saver. It was further emphasized that continued research will be needed to end the current CORONA crisis and to get onto the pathway to greater well-being and prosperity of all the living beings on the planet earth.

I am certain that the students and faculty as well were completely convinced that science and technology is essential for the progress and development of human lives and more and more scientists and technologists are needed in the coming years.

I would be more than happy to participate in such educational activities of your college in the future.

Thanking you and with Best Regards

Prakash P. Wadgaonkar
